

An effective and efficient humanitarian response to better serve people affected by crisis.

H₂H

Catalysts for Change

Our Mission

The H2H Network consists of humanitarian service agencies that offer independent, high-quality and relevant services that collectively support humanitarian response. The network funds its members to help them quickly activate in an emergency.

Our Members

H2H Network members' services are available in the following service categories:

- Community engagement & accountability
- Data & information
- Quality & sector professionalisation
- Security, logistics & programme support

What we Offer

Expert services to benefit all responders. When funded by the network fund, these services are available at no cost – **see overleaf for more information on currently funded services for the Covid-19 info-demic**. In 2019, the fund also provided service packages for responders to Cyclone Idai in Mozambique, the Ebola epidemic in DR Congo and the security crisis in Burkina Faso.

Work with us!

The humanitarian sector must adapt and evolve to cope with the scale and nature of humanitarian crises today. To request a fund activation or to join the network as an H2H service provider, contact us at info@h2hworks.org.

The H2H Network service package for countering the COVID-19 global ‘info-demic’ supports the response as it organises into a well-coordinated operation.

The network funds four projects from the membership to support these objectives:

Category of need	Details of service	Service providers
Communication, information and community engagement	Library of relevant and current scientific research on COVID-19, accessible to key actors	Evidence Aid
	Trusted, accurate and multi-lingual media and communication content (TV, radio, digital) to address the global spread of false information	BBC Media Action
	Social media monitoring, rumour tracking media and community engagement activities	Internews
	Data-driven language support to combat misinformation related to the coronavirus	Translators without Borders

As part of the funded network service package, these services are available to all responders.

The network and its fund are supported by UK aid from the UK government. The network is hosted by the Danish Refugee Council.

Reach out to the network for direct contacts and to request other services from H2H Network members:
